THE UNION OF ALL PATRIOTIC MEN. - The Union of all patriotic men in all parts of the country in support of the President's policy is now what is peculiarly needed in order to give it immediate and complete success. That success is the great, paramount want of the country, because it will bring with it, sooner or later, every other governmental good.

That policy is the Union policy, and its opposite or radical programme is the disnulon policy. The advocates of the latter have the shameless effrontery to take the ground that secretion was a success, and that the Union has indeed been dissolved. They declare the States lately in revolt to be out of the Union, and conquered provinces. They should go and make their acknowledgments to Sildell, Benjamin, Rhett Toombs etc. and ask their forgivenes the secessionists were, for they agree that the seceded States went out of the Union, though we don't know that Rhett, etc., contend that the said States are still out of it. We don't kn w that the old secessionists are now as radical as the radicals are. It is probable tha the secession leaders-such as are still allvehave learned something, while the radica

It is quite time for all patriotic men to dro all mere technical party names by which they were formerly distinguished, and to rally upon the Union platform around the President, the acknowledged leader of the great and only Union Party of the country in opposi Disunion Party of the country, headed and led by such men as Stevens and Samner. There is no other hope for the salvation either of the Constitution or the Union, none other for permanent peace, liberty, and civil rights.

The Union men of the United States, without distinction of party, are settling down into this firm conviction-that there is no hope for the land but in the pushing on to completion an final victory of the measures which the President has adopted for the pacification of the Ra-S. nat. r Doclittle, of Wisconsin, on Thurs

day led off in the Senate in defense of those messures and of the true theory of the Uni n of which we had a synopsis yesterday by telgraph Senator Doolittle is technically a Reputlican. On the other, or what is known as the Democratic side, we have equally good evi dence that the restoration policy of the Presi dert is cordially sustained. Ex Senator N. A. Richardson, of Illinois, has just written a letter strongly indorsing that policy. Ex-Senato Richardson is one of the acknowledged leader of the true Democracy of the country. Hon. 8. S. Cox. a brilliant and versatile Democrat, late ly of Ohio, has just made a speech, in which he cordially indorses the President, and calls upon Geo. T. Curtis, of New York, John Van Burer and many other lights of Democracy, take the When we turn to the South, we find all the

Old line Whigs and Union Democrats, like Stephens, Sharkey, Herschel V. Johnson, ex-Governor James Johnson, Governor Charles J. Jenkins, ex-Governor B. F. Perry, John Foreyth, ex-Minister to Mexico; Governor D. L. Walker, of Florida; ex-Governor Holden and Governor Worth, of North Carolina; John M. Botte, cur own Senator Guthrie, and a host of others arraying themselves upon the some great, glorious Union platform, coming up energetically to the support of Audrew chason's administration. We do not say the they all agree in every particular. This it would be absurd to expect, and is quite unnecessary. But they support the President's pian in the main as upon the whole the best possible policy that could have been adopted under the ex traordinary exigency which had arisen in on national affairs. They support it as a plan for reace, a grand compromise of difficulties otherwise insurmountable and intolerable; as the rolden mean between extremes; as resting upon a broad and comprehensive basis of common sense and practical knowledge of what the necessities of the country required when the great work began and what they require now. The Jacobin programme is one not of seces sion only, but of revolution and despotism not of exorbitant taxation continued to a pe ried beyond which no eye can penetrate only but of profligacy and corruption as inseparable from it; not a programme which holds out no prospect of ultimate conciliation merely, by which is sure to produce the fiercest section antagonism and to fill the hearts of the "con-

The civilized nations of the earth are aston ished at the rapidity with which the lately antagonistic armies have subsided, disappeare like the men of Roderick Dhu, and the readiness with which the Southern people have renowe their alles innee to the government against which they rose in arms. Those nations are bewildered as well they may be, that a state of war upon a scale of unprecedented magnitude should so suddenly give way to a state of profound peace. They are amazed at that magic in American Institutions and American princi-ples that can yield results so nnexpected, and they are enraptured with that great common serse and that versatile adaptability to circumstances in perilons emergencies which can so quickly eviscerate comparative order and th blessings of restored industry from the convu sions that so lately shook the civilized world. Shall this great occasion be thwarted, and that state of things which now augues so hap p ly for our whole country be turned into the bottomices pit of red-handed Jacobinism? Shall the Reign of Peace be exchanged for the Reign of Terror, and the Magna Charta system for that of the Bourbons? It is for the Union men of the country to de

and a passionate desire for vengeance upon

the President will have an easy victory. The forces that are arrayed against him are by no means contemptible, either in numbers or power. He needs the support of all patriotic and reasonable men in every part of the Republic. The lower house of Congress has just passed a bill granting negro suffrage in the Destrict of Columbia a thing of small moment in itself, but which is important from the fact that it is designed as a precedent to force negro suffrage upon the Southern States. It is meant to pave the way for the usurpation of the rights of the States in reference to this question, and thus to overthrow practically our principles of government. It is to prepare an inclined plane down which the government may plunge into the vortex of des, otism. The President will stand like a rock against this attempt, but he is not omnipotent, and the country must rouse itself

against this new peril. It has overthrown one

set of revolutionits. It must everthrow

English versus Latin -Once upon a time, a company was assembled at the dinner-table in a hotel in Georgia, when the conversation turned upon the comparative merits of the English and the Latin languages. A Latinist present led off in enthusiastic eulogies upon the power and versatility of his favorite lan-guage, and adduced in illustration the cele brated dispatch of Cassar - Veni, vidi, vici. "What," exclusioned he, "can equal the condensed brevity and force of that?" A guest, who had hitherto remained silent, here joined in the conversation, and said he thought he could match it and something more. "As was nearing a certain river the other day," he went on to observe, "I met a country girl with a plate of fresh butter on her head, who was on her way to market with it at the village, and who had just forded the stream which was to cross. Accosting her, I inquired, ' How high is the river and what's the price of butter? She instantly replied, "Up to my waist and a shilling!" The roar that greeted this indicated the popular vote, and the Latinist subsided.

Advices from New Orleans state that the feel ing against Northern men, engaged in planting in the Southern States, is so intense that they are rapid; settling up their business for he purpose of rem ving themselves and their families to a more gental clime.

CHARTER FOR GAS COMPANY .- This will be tound in our issue of to-day, and it is certainly of the utmost importance to the citizens of Louisville that so important an interest as the jublic and private lights should receive the careful consideration of the City Council. They are bound to see whether or not the charter before them furnishes as near as possible all the requirements that can be had of a private corporation to continue the operations of this enterprise. The Council is chosen by the peowhich the people at large cannot be expected to do. The charter seems to be a very fair one for the interests of the city, and the exposition of the affairs of the company are certainly very tavorable to the administration of the present CIRCUIT COURT-HON. G. W. JOHNSTON

Jenge.-The Court met as usual at 91/2 o'clock resterday morning. W L. Jackson, Esq., was duly sworn in as an attorney. In the case of Commonwealth vs. J. Waldis, the defendant's recognizance was declared forfeited. The Court and jury occupied most of the session in deliberating upon the case of the Commonwealth ve. John C. Scalf, indicted for stealing clothing. The reason of this protraction was the extraordinary efforts made by the counsel for the prisoner. The case itself is one of little magnitude, but the is wyers are stretching it out wonderfully. The jurymen have not yet agreed upon the verdict. W. A. Auerbach, indicted for obtaining goods under false pretenses, was adjudged guilty and sentenced to serve a term of one year in the penitentiary. Our readers will recall the fact that the condemned man, some time in October iast, made the attempt to swindle several of our prominent merchants out of from sixty thousand to eighty thousand dollars' worth of merchandise. We gave the particulars of his operations at the time. Although his rascality muscarried, and but little loss was suitained by the merchants, we think the Court sets the right example in convicting him. He skill and a lasting an incollection be benefit to the On this point we wish to introduce some whole some remarks of an exchange: "The practice should be disc ntinned, for it car have no other effect than to throw im, ediments in the way of the adultistration of criminal law, and embolden offenders in the commission of desperate and brutal crimes against law and pul lic morals. The judge, who, for days has patiently listened to the evidence in a case, has heard from the witnesses for the Commonwealth and the defense a narrative of all the circumstances enunected with the crime, is certainly better able to apportion the punishment to the offense than those who only get their knowledge from the friends of the accused. The Governor, when applied to for a pardon, is never told the monstrons details which, in many cases, surround crimes of such magnitude as those for which severe sentences are imposed, and hence cannot form an accurate judgment as to the justice of the course pursued by the judge who fixes the punishment. If there are no special extenuating circumstances, the fact that a long term of imprisonment has been lm-posed upon a criminal should induce the Execu-that of providing shelter for the orphans, and tive to allow that sentence to remain, rather than make it of no effect by the interposition of efficial ciemency. If a person willfully takes the lives of two human beings, and the jury r fuses to fix the crime as marder in the first degree, should the imposition of a se vere sentence upon the culprit be accepted by the Governor as sufficient reason for turning tim loose upon the community? If so, then the policy of all ruflians is to commit those crimes which deserve the severest punishment, and then rely upon that fact to open the prison door for their release. But we hope that a juster must v those intrusted with authority. If persons encourage these evil persons until they come dangerous to the peace of the city, and full and well merited punishment falls upon them, the fault is their own, and no one is jus tified in interfering with the administration of
